

CV

One trajectory: teaching, then the tools, then back to teaching with the tools.

Positions

Doctoral researcher (*doktorand*), GenAI and human-AI interaction in teacher education

University of Gothenburg, Department of Education, Communication and Learning (IPKL) · From August 2026

In GRAITE, Sweden's national graduate school for AI in Teacher Education (VR-funded, nine universities). Researching how teacher educators enact professional judgment and agency when co-creating with generative AI.

Co-founder & Chief Product Officer

MySwedenLife · 2026–present

An AI-guided digital onboarding assistant for newcomers to Sweden: verified, personalized, step-by-step guidance across the agencies every arrival has to navigate. Live for international students; a skilled-worker journey in build.

Product manager, GenAI

Volvo Cars AB · Gothenburg · 2023–2026

Led GenAI product work serving 100+ markets. Built AI that assists human decisions: buyer search, customer care, analyst workflows. Ran product discovery on behavioural analytics and experiments; drove roughly 10% uplift in online sales conversion; cut cloud costs by about 80% and query latency by 25%. Programme-managed European Accessibility Act compliance across 27 markets. Co-founded the analytics community of practice. In 2024 ran an internal study on epistemic ownership in AI-assisted coding (traces plus survey, n=127).

Commercial learning & learning analytics project manager

Volvo Cars USA · New Jersey · 2022–2023

Commercial learning and learning analytics: the education thread and the data thread running through one job, three years before the doctorate made that pairing a research question.

Earlier positions in analytics and data

- **Data analyst**, Incrementum AB · Gothenburg · 2021–2022. SQL and Python analysis, ETL pipelines supporting product decisions.
- **Passenger experience & data manager**, China Southern Airlines · Ho Chi Minh City · 2017–2020. Operational data systems for 500+ daily flights; cut passenger information discrepancies by 30%.

Teaching

- **Language tutor & instructional designer**, University of Education Language Center · Ho Chi Minh City · 2017–2020. See [Teaching](#).
 - **Mentor**, [ADPList](#) · ongoing. Early-career product managers and analysts.
-

Education

M.Sc. Applied IT and Learning, University of Gothenburg · 2020–2022 Human-AI interaction, digital learning design, learning sciences. Thesis: *Chatbot-Mediated Engagement in Learning*, graded **VG**. Funded by the Swedish Institute scholarship below.

M.Sc. Information Systems, Linnaeus University · 2023–2024 (part-time) Business analytics, big data analytics capability, AI and organisational trust. The line of work behind the [ECIS 2026 paper](#).

B.A. Mandarin Language Education, Education University, Ho Chi Minh City · 2013–2017. Second language acquisition, learning theory, literacy identity.

Selected awards

- **Swedish Institute Global Professionals Scholarship** (2020): full funding for the master's in Applied IT and Learning, about 500,000 SEK, awarded to roughly 1.25% of applicants.
 - **Volvo Cars Global Graduate Program** (2022): two-year leadership programme with about a 2% acceptance rate.
-

Certifications & training

- **PMI-CPMAI**, AI project management
 - **Volvo Cars Product School** (SAFe, Scrum) · **Hyper Island** (data analytics and visualisation)
-
